Summary

Emerging Python Full Stack Developer with practical experience in HTML, CSS, JavaScript, React, Python, and Django. Built some real-world applications including a CRM system, Warehouse Management tool and portfolio site. Currently pursuing Full Stack Web Development certification at SLA Institute of Technology. Passionate about clean backend architecture, responsive UI design, problem solving, and continuous learning.

Education

DRBCCC Hindu College

2017 - 2020

Bachelor of Computer Application (GPA: 6.40 / 10.00)

Chennai, Tamil Nadu

- **Relevant Coursework:** Python Full Stack (HTML, CSS, Python, Django, Javascript, Bootstrap, SQL)

Projects

Vehicle Breakdown Assistance | Django, HTML, CSS, Tailwind, SQLite, Python

- Developed a Django-based Vehicle Breakdown Assistance System to provide real-time roadside support by connecting users with nearby mechanics during vehicle breakdowns.
- Integrated live location tracking using JavaScript Geolocation API, Leaflet.js, and Django backend to capture user location and display customer-mechanic tracking on interactive maps.
- Designed a responsive and professional UI with Django templating, focusing on real-world workflow management, service history, and efficient roadside assistance operations.

Warehouse Management System | Django, HTML, CSS, Bootstrap, SQL, Python

- Developed a Django-based Warehouse Management System to track inventory, stock levels, and storage records in real time.
- Designed and implemented scalable backend using Django ORM, models, views, and URL routing for full CRUD operations.
- Built intuitive and responsive UI using Django templating for efficient inventory management via browser.
- Applied modular architecture and clean coding practices to improve maintainability and scalability.

CRM - Customer Relationship Management | Django, HTML, CSS, Bootstrap, SQL, Python

- Developed a CRM web application using Django to manage customer data and interactions with full CRUD functionality.
- Designed backend architecture with Django models, views, and URL routing following MVC principles.
- Built dynamic user interfaces using Django templating for seamless data operations (add, update, delete, view).
- Implemented authentication and validation to ensure secure and reliable data handling.

Technical Skills

Languages: HTML5, CSS3, JavaScript (ES6+) and Python

Frameworks: Django, React, Tailwind, Bootstrap 5

Database: MySQL

Tools: Git, GitHub, VS Code, Antigravity

Experience

ILED Lighting System Pvt Ltd

Store Executive

Jun 2021 – Dec 2024

Chennai, Tamil Nadu

St Luke Med Flair Pvt Ltd

Store Executive

Dec 2024 – Jun 2025

Chennai, Tamil Nadu

Certifications

FULL STACK WEB DEVELOPMENT

SLA Institute of Technology

HTML and CSS IN DEPTH - META

Coursera

Jun 2025 – Dec 2025

Chennai, Tamil Nadu

Sep 2025 – Sep 2025

Chennai, Tamil Nadu
